« Prognostic Modelling » One-day Workshop:

12 November 2009

Venue : Regional Council, Salle du Conseil Régional, Boulevard de la
Trémouille, 21 000 Dijon, France

On behalf of the International Society for Clinical Biostatistics (ISCB), the French Society of Statistics (SFDS), the French Society of Biometry (SFB) and the Association of the French Speaking Epidemiologists (ADELF), we would like to invite you to register for the workshop “Prognostic Modelling”, which will take place on 12 November 2009, in Dijon (France).

The aim of the workshop is to foster collaboration between the academic community, biomedical research institutions and industry. It will bring together international experts from all over the world on prognostic modelling to give lectures on important topics in prognostic modelling

The workshop speakers are **Michal Abrahamowicz** (Canada), **Daniel Commenges** (France), **Jean-Yves Dauxois** (France), **Aurélien Latouche** (France), **Willi Sauerbrei** (Germany) and **Ewout Steyerberg** (Netherlands).

Please use the attached form for registration. We look forward to your participation at the Prognostic Modelling workshop in Dijon, France.

Scientific Committee

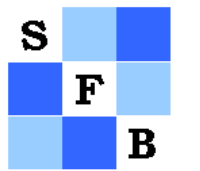

Chair: Rumana Omar (*Chair of ISCB Education Subcommittee*)
Rachid Salmi
Michel Chavance (*Treasurer SFB*)
Catherine Quantin

Organising Committee

Chair: Catherine Quantin (*Chair*)
Co-chair: Harbajan Chadha-Boreham (*Vice-President of ISCB*)
François-André Allaert
François Aubin (*President of the group « biopharmacie et santé » SFDS*)
Christine Binquet
Maniane Fassa
Marianne Mercier
Roger Salamon (*Past-President of ADELFF*)

Preliminary Program

Workshop « Prognostic Modelling » Dijon, November 12th, 2009

THURSDAY

9:00 Registration

9:30 Welcome and opening of the conference

Morning Session

10:00-11:00 Ewout Steyerberg, (Netherlands): General modelling strategy issues

11:00-12:00 Willi Sauerbrei, (Germany): Model building with the multivariable fractional polynomials procedure.

12:00-12:30 Discussion (Chair: Nicole Close)

12:30 Lunch

Afternoon Session

14:00-14:45 Michal Abrahamowicz, (Canada): Assessment of cumulative effects and weighting of past values of prognostic factors.

14:45-15:30 Daniel Commenges (France): Using Kullback-Leibler risk for choosing a prognostic model.

15:30-16:00 Discussion (Chair: Ewout Steyerberg)

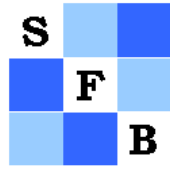

16:00 Coffee break

16:30-17:15 Jean-Yves Dauxois and Aurélien Latouche (France): Semi and non parametric estimation, for competing risks with missing causes.

17:15-18:00 Discussion (Michal Abrahamowicz)
